7 Period of validity of tickets

Tickets are valid **4 days including the first day of validity** (for example 1st day of validity 01/04/year, last day of validity 04/04/year).

Nevertheless, carriers may agree a shorter or longer period of validity in their special conditions of carriage (for example, for special traffics and offers), **on the basis of bilateral agreements.**

As an exception, for carriers LG, LDZ and EVR, the period of validity of tickets is 15 days.

Validity begins on the day shown on the ticket.

The ticket's first day of validity counts as a full day. Passengers may start their journeys on any day on which their ticket is valid at their discretion but passengers must finish their journeys on a train which is timetabled to arrive at their destination point by 24.00 hours on the last day of validity.

The period of validity may be extended without charge if the ticket cannot be used within its period of validity for unavoidable reasons (illness, serious accident, etc.) **The conditions of the carrier, to whom the request is made, are applicable.**

Tickets for offers linked to specific trains are only valid on the date and in the train shown on the ticket.

8 Reservation and allocation of accommodation ([supplementary to point 4.1.4 GCC-CIV/PRR](#))

A reservation guarantees a passenger accommodation. The carriers' special conditions of carriage lay down the conditions in which reservation is possible or, as appropriate, compulsory, and how reservation tickets are to be issued. Timetables are to indicate trains for which reservation is compulsory.

Reservations may only be requested eleven months before the beginning of the journey at the earliest. Accommodation is allocated in accordance with each carriers' conditions.

The SCIC-NT [specifies](#) the conditions for the reservation of couchettes and sleeper berths.

8.1 Reservation fee

The carrier may make a charge for each reservation. The charge may depend on the class of travel, the category of service or the sales channel. See point 12.2 for the use of whole compartments.

8.2 Use of the reservation

A reservation ticket will be issued for every reservation.

A reservation ticket is only valid with the associated travel ticket on the days, trains, carriages and seats indicated. Carriers may insist that a travel ticket is purchased at the same time as the reservation.

Accommodation is allocated in accordance with each carriers' conditions. Train staff may permit passengers without reservations to travel on trains with compulsory reservation if there is accommodation available.

In exceptional circumstances, train staff may allocate accommodation other than that shown on the reservation ticket.

Reserved accommodation is to be claimed within 15 minutes of departure from the station from which the reservation applies; if this is not done the entitlement to accommodation expires.

Passengers may indicate that an empty seat is occupied. Should passengers leave seats without a clear indication of occupation, they are to lose claim to them.

8.3 Exchange and refund

In principle, passengers may not exchange reservations for seats.

Reservation [fees](#) for seats will not be refunded.

9 Use of tickets

Special charges/supplements may apply to the use of certain trains or coaches (sleeping cars, couchette coaches, seated coaches, etc.).

Where there is a choice of route, the journey must be made by one of the routes shown. Changing [during travel](#) from one route to another route shown in the routing field is not permitted.

Handwritten international and national [tickets](#) are only valid if they are stapled into a cover.

[Outbound](#) halves of return tickets become invalid after the [inbound](#) journey ~~is~~ [has](#) started.

Tickets issued by SNCF in France and by Trenitalia in Italy must be validated before the start of the journey. [After having been date-stamped, these tickets are valid on those carriers' transport services for a maximum of 4 hours if issued by Trenitalia and for a maximum of 24 hours if issued by SNCF.](#)

10 **Interruption of journey (supplementary to point 5.2.5 GCC-CIV/PRR)**

In principle, passengers may **interrupt** their journeys as often as they please without formality within the period of validity of the ticket.

The carriers' special conditions of carriage may provide for exceptions for certain offers.

The period of validity is not extended to take account of **interruption** of journey.

Passengers may only resume their journeys at the point their journeys were **interrupted** or at a point further along the route they have not yet **travelled**.

11 **Amendment of the contract of carriage**

11.1 **Change of route**

In general, changing the routing of international **national tickets** is permitted. Carriers may however prohibit changes of route in their conditions of carriage.

11.2 **Change to a higher class of travel or to a higher class of train**

In general, passengers holding international **and national tickets** may change to a higher class of travel, a higher service category or to a higher class of train. Carriers may however prohibit changes to class of travel or to a higher class of train.

No extra charge will be raised if accommodation in a higher class or category of service is allocated for reasons within the **responsibility** of the carrier.

If passengers are allocated accommodation in a lower class or category of service, the train crew will certify that on the ticket, reservation ticket or on an appropriate receipt. The difference in price will be refunded in accordance with the carriers' special conditions of carriage.

11.3 **Change of carrier**

In principle, where several carriers serve a section of route in parallel, change of carrier is not permitted. Individual carriers may permit change of carrier; the details are then specified in their special conditions of carriage.

12 **Offers**

The carriers' fares are based on a single journey in the classes of train, classes of travel and service categories they offer.

The principles governing reductions from these basic fares are laid down below. If, and under what conditions, carriers offer further reductions is laid down in their special conditions of carriage.

Carriers are to publish details of fares in accordance with the provisions of the applicable national law.

12.1 **Calculation of fares**

Fares are calculated on the basis of the tariff valid on the day of issue of the ticket by adding together the fares for the various participating carriers' sections. The tariff currency is euro (€).

The fare set by the carrier will be charged for single journeys.

For return journeys via the same route, twice the fare for the single journey will be charged, or **if** appropriate, a special fare set by the carrier for the complete ~~out and~~ return journey.

For **return** journeys via different routes:

- If the same carrier is used for the **out- and inbound** journey, the sum of the fares for the single journeys **out- and inbound** will be charged, provided there is no special fare for the **complete return journey**;
- If different carriers are used for the **out- and inbound** journey, the fare for each leg will be set by the carrier in question.

For **return** journeys where **the inbound** journey starts from a point different from the destination of the **outbound** journey or **an inbound** journey to a destination other than the departure point of the **outbound** journey, the sum of the single fares for each leg will be charged.

Individual carriers may apply special provisions for calculating fares to national **tickets**; these provisions are shown in the special conditions of carriage.

The Standard Fare of the involved carriage for first and second class will be indicated with an equal decimal place (0,2,4,6,8).

Reduced fares for first and second class are to be rounded to the nearest 10 euro-cents.

If several passengers with differing reductions are included and shown on a ticket under particular tariffs, the total fare is to be constructed by rounding [each element] to the nearest 5 euro-cents.

12.2 Particular fees

The fees and charges (local supplements, **port taxes**, etc.) shown in the special conditions of carriage of the various carriers will be added to the standard fares. Reductions allowed from standard fares (including reductions for children) do not apply to additional fees and charges subject to the carriers' special conditions of carriage providing otherwise.

Exclusive use of a complete compartment is permitted provided tickets and a reservation **ticket** are bought for all the accommodation in the compartment. Only the actual passengers may take advantage of the reductions they may be entitled to. The standard fare is to be paid for all the other accommodation in the compartment.

Carriers may restrict use of this type **of fees**, refuse it or make it subject to special conditions.

12.3 Reductions for children

The principles for reductions for children are set down below.

For the purposes of this provision, the criterion for the age of a child **is** its age on the day the journey **has** begun. The ticket held by the accompanying person is valid for the carriage of children free-of-charge.

Children under four years of age accompanied by an adult are carried free-of-charge **if there is no request for separate accommodation.**

Children under twelve years of age pay half the adult fare (child fare).

The child fare is to be paid for children who in principle are entitled to carriage free-of-charge if separate accommodation is required for them. Where appropriate, a seat reservation is issued under the same conditions as for adults.

In some countries special **conditions** may apply to children travelling alone.

12.3.1 Rules for children's age

The passengers forming the group must travel together in the same train, ship or bus for the whole journey for which the reservation or notification was made.

Carriers reserve the right to withdraw the provisions of this section for specific periods of time or for certain trains, ships and buses.

12.6 RAILPLUS

12.6.1 Beneficiaries

RAILPLUS cards are issued in accordance with the SCIC of each undertaking.

12.6.2 Period of validity of the RAILPLUS card

In principle, RAILPLUS cards are valid one year.

If a RAILPLUS card is issued to supplement a national entitlement card, its validity may not extend beyond the date shown on the national entitlement card.

If national entitlement cards are valid for more than a year, carriers may use their discretion when setting the validity of RAILPLUS cards.

The first day and last day of validity are to be shown on the RAILPLUS card.

12.6.3 Charge for the RAILPLUS card

The charges for RAILPLUS cards are set down in the SCIC of each undertaking.

12.6.4 Reduction in fares upon presentation

FOR ALL TICKETS ISSUED AT THE LATEST AT THE 9th DECEMBER 2017

- of a RAILPLUS card in conjunction with a national entitlement card, the reduction which the national entitlement card allows will be given on the sections of line over which it is valid. A reduction of at least 25% will be given for the other carriers participating in the RAILPLUS offer;
- of a RAILPLUS card not linked to a national entitlement card, a reduction of at least 25% will be given for those sections of line served by all carriers taking part in the **RAILPLUS**-offer.

FOR ALL TICKETS ISSUED AS OFF THE 10th DECEMBER 2017

- of a RAILPLUS card in conjunction with a national entitlement card, the reduction which the national entitlement card allows will be given on the sections of line over which it is valid. A reduction of at least 15% will be given for the other carriers participating in the RAILPLUS offer;
- of a RAILPLUS card not linked to a national entitlement card, a reduction of at least 15% will be given for those sections of line served by all carriers taking part in the **RAILPLUS**- offer.

The reduction will be calculated from the standard NRT-fare.

The reduction may be restricted to certain target groups.

12.6.5 Supplements, reservation charges

No reduction is allowed on supplements for the use of certain trains and coaches or reservation charges in accordance with the tariff.

12.6.6 Use of the RAILPLUS card

The RAILPLUS card is to be made out in the name of the holder and is not transferable.

The RAILPLUS card is to be shown to ticket-inspection staff on demand. Proof of identity may also be demanded (for example, identity document).

12.6.7 Irregularities

A passenger will be regarded as being without a valid ticket if he/she is unable to show

- a valid RAILPLUS card
and/or

- as appropriate, a valid national entitlement card.

The national regulations of the various carriers apply to the collection of the appropriate fare in these cases.

12.6.8 Refund

In principle the charge for the RAILPLUS ticket will not be refunded.

In individual cases, participating carriers may provide for complete or partial refund (for example, death of the RAILPLUS card holder).

12.6.9 Loss and theft

Lost or stolen RAILPLUS cards will not be replaced or refunded.

12.6.10 Issue of tickets

The following tickets will be issued with RAILPLUS reductions:

International **and national tickets** issued in conjunction with them; tickets in connection with

- IRT offers,
- national reductions
- other rail offers;

This also applies to tickets from frontier points or tickets for domestic sections provided that the combination of tickets creates an international journey (i.e. one which crosses a frontier).

The traveller has to prove the international journey (including RAILPLUS reduction) by showing the tickets issued in conjunction (i.e. for pre-run and/or for a distance connecting) during ticket control.

The RAILPLUS is to be shown in the reason for the reduction box on tickets.

12.6.11 Period of validity of tickets

Tickets issued on the basis of a RAILPLUS card are valid for the same period as standard tickets for international or, where appropriate, domestic traffic.

The period of validity must not however extend beyond the validity of the RAILPLUS card.

12.6.12 Change of route, change of class

In general, change of route, change of class, change to a higher service category or to a higher class of train is permitted. Carriers may however prohibit changes to class of travel or to a higher class of train.

In each case the difference between the reduced fares will be charged.

13 Return, exchange and refund (supplementary to point 4.2.4 GCC-CIV/PRR)

13.1 Return of tickets

Return of tickets may only be made to the issuing point and within the period laid down by the carrier.

Special regulations for return may apply to special offers.

13.2 Exchange

Exchange may only be made within the period laid down by the carrier. Special regulations for exchange may apply to special offers.

As appropriate, a difference in fares may be refunded or charged to the passenger.

13.3 Refund

The fare for a ticket will be completely or partially refunded if the ticket is not used at all or is only partially used. Non-use or partial non-use must be confirmed on the ticket **as of** the first day of validity. If the ticket bears no confirmation of non-use or partial use, appropriate evidence is to be submitted with the application for refund (medical certificate, new ticket bought instead of the unused ticket, etc.)

The participating carriers' special conditions of carriage may exclude refunds or make them subject to special conditions.

13.3.1 Submission and handling of applications for refund

The provisions of the GCC-CIV/PRR apply.

Applications for refunds are to be submitted to the issuing undertaking together with the original tickets at the latest one month after the validity of the ticket has expired.

This period can be extended to three months, according to specifications in the SCIC of the issuing undertaking.

The requests themselves will be dealt with, in principle by the issuing undertaking, within a maximum period of three months after receiving the application and all the supporting documents from the passenger.

13.3.2 Refund fee

A fixed or variable amount may be withheld from the amount to be refunded. The amount of this fee will be set by the refunding carrier.

14 Special conditions for hand luggage (supplementary to point 6.1 GCC- CIV/PRR)

As a rule, each passenger may take not more than three easy-to-handle items as hand luggage. **The special conditions of the carrier have to be checked for the exact maximum measurements.**

Bulky items (skis, musical instruments, prams, etc.) are only permitted if there is suitable space in the train to store them. As appropriate, they are to be dismantled, folded or packaged.

Surfboards are not permitted as hand luggage.

15 **Bicycles carried by the traveller** (supplementary to point 6.5 GCC-CIV/PRR)

If carriers permit **bicycles carried by the traveller**, the conditions below apply.

The carriers' timetable documentation specifies the trains in which it is possible to take bicycles. If bicycle racks are available, in principle bicycles may be taken. Bicycle racks are shown by pictograms on coaches, and, when available, **by indicators** on the platform. In principle, reservations are compulsory for **bicycles carried by the traveller**. A reservation counterfoil is required for the bicycle rack. By exception, accompanied bicycles may be accepted without a reservation if there is appropriate capacity available over the whole of the intended journey and the train crew permits it.

15.1 **Taking a bicycle along**

In order to take a bicycle, passengers must hold an international bicycle ticket and, if appropriate, the counterfoil showing details of the bicycle ticket. The counterfoil is to be attached to the bicycle itself. In addition, passengers must hold a passenger ticket for the same section.

15.2 **Conditions for taking a bicycle along**

The following types of bicycles may be taken:

- commercially available bicycles (including those with auxiliary electric motors)
- bicycle trailers for children or goods
- two-seat tandems, recumbent bicycles, tricycles and other special types of bicycle.

Additional international bicycle tickets may be required to take special types of bicycles.

Reservation or allocation of one (or two, depending on the type of bicycle) spaces is necessary.

One space is adequate for:

- a commercially available bicycle, or
- a two-seat tandem, or
- a recumbent bicycle

Two spaces are necessary for:

- a commercially available bicycle with a trailer, or
- a tricycle.

Additional spaces in accordance with the carrier's arrangements may be necessary to accommodate special types of bicycles.

Carriers may refuse to carry certain types of bicycles.

As appropriate, only folded bicycles may be permitted.

15.3 Loading

Passengers must load and unload the bicycle themselves. That applies to the departure and destination stations and to any station at which a change is necessary.

Luggage attached to bicycles is to be removed from the bicycle, at the latest before the bicycle is secured in the bicycle rack or left in the space provided for bicycles.

15.4 Provisions of customs law

If provisions of customs law apply to the international journey in question, the name and address of the passenger are to be written on the international bicycle ticket and on the counterfoil for customs purposes. The bicycle ticket is to be signed and the counterfoil attached to the bicycle.

15.5 Carriage charges

The charge for reserving or allocating spaces for bicycles may be included in the charge for the international bicycle ticket. It is independent of the number of reserved/allocated spaces. The charge is set by the issuing undertaking.

Additional international bicycle tickets may be required to take special types of bicycle.

No reduction is given for children's bicycles or for bicycles taken by groups.

15.6 Refunds

Wholly or partially unused international bicycle tickets will not be refunded.

15.7 Liability for **bicycles carried by the traveller**

Carriers are only liable for accompanied bicycles in accordance with their liability for hand luggage (Article 33 – 35 CIV).

Passengers must therefore to secure their bicycles to prevent damage and theft and if appropriate insure them.

The carrier accepts no liability for luggage which passengers leave on the bicycle. This also applies to accessories not permanently attached to the bicycle, such as water bottles, pumps, speedometers, computers, etc.
